How many households are struggling?

ALICE, an acronym for **A**sset **L**imited, **I**ncome **C**onstrained, **E**mloyed, are households that earn more than the Federal Poverty Level, but less than the basic cost of living for the county (the ALICE Threshold, or AT). Combined, the number of poverty and ALICE households equals the total population struggling to afford basic needs.

What are the economic conditions?

The **Economic Viability Dashboard** evaluates community conditions for ALICE in three core areas. Each is an index with a scale of 1 (worse) to 100 (better).

Housing Affordability 70	Job Opportunities 63	Community Resources 30
------------------------------------	--------------------------------	----------------------------------

What does it cost to afford the basic necessities?

This bare-minimum budget does not allow for any savings, leaving a household vulnerable to unexpected expenses. Affording only a very modest living in each community, this budget is still significantly more than the Federal Poverty Level of \$11,770 for a single adult and \$24,250 for a family of four.
